In regard to their

Black Goods Stock !

First, our Black Cashmeres. This old and reliable dress fabric will always be a standard goods and we claim that our brand of this popular material is superior in weight, finish, quality and color to any in the market. These goods have advanced from 15 to 20 per cent, but our order for the present stock was placed fully six months ago and our retail price for them is just the same as before the advance. We have in stock 40 inch cashmeres from 45 cents to $1.25, and we defy competition in the five following qualities:

Our 65 cent quality.

Our 75 cent quality.

Our 85 cent quality.

Our $1.00 quality.

Our $1.25 quality.

In Silk Henrietta Cloth we sell only B. Prestley & Co.'s silk warp goods. To those who know this work, and there are but few buyers now who do not, it is only necessary to assure them of the brand and they are perfectly satisfied that in their purchase they will receive the full worth of their money. Those who are not acquainted with the goods have only to place it beside any other brand they can find to be convinced that there is nothing made in this line to compare with it. We ask you to look at

Our $1.00 Quality.

Our $1.25 Quality.

Our $1.50 Quality.

Our $2.00 Quality.

HANGED BY A MOB.

A Colored Prisoner Taken from Jail and Lynched.

ARKANSAS CITY, Ark., Dec. 2.—Early yesterday morning a party of masked men surrounded the jail at Monticello, the county seat of Drew county, and demanded from the jailor the surrender of Buck Hunter, a colored man, who was charged with assault with intent to kill on two respected citizens of that county. Finding resistance worse than useless the jailor surrendered the key to the cell in which the man was confined and the mob seized Hunter, placed a rope around his neck and led him out into the suberbs of the town, where they strung him to a limb. To make sure of their work they then emptied their shot guns into the suspended body.

The Amsterdam Strike.

AMSTERDAM, Dec. 2.—The Knights of Labor claim that their condition is all that could be desired, while the association of manufacturers declare the backbone of the corganization in this city is broken. Over 1,000 hands are now at work and every mill has a long list of applicants for work. The manufacturers assert that before the close of the week the Knights of Labor will be unable to control its individual members and in a few more days the mills will be all running to their full capacity.

A NEW PARTY.

A Movement for the Organization of the National Union Labor Party.

PITTSBURG, Dec. 2.—A circular has just been issued by the national committee of the united labor organs, containing a declaration of their principles and the objects of the industrial movement to form a national union labor party at the convention to be held at Cincinnati February 22, 1887. Representatives have been appointed to represent the various organizations. The basis of representation gives each congressional district one representative for each of the following orders or organizations in such districts: Knights of Labor, trades unions, greenback labor party, farmers alliance, grangers and patrons of husbandry, anti-monopoly leagues, people's party, farmers and laborers co-operative union, agricultural wheels, soldiers organizations and all other organizations which indorse and subscribe to the new declaration of independence.

HOOSIER STRIKE.

The Miners at Brazil Walk Out Against Unjust Weights.

BRAZIL, Ind., Dec. 2.—The miners employed in the Campbell and Bartlett mines, 250 in number, threw down their picks at noon yesterday and came out of the mines, at the order of the committee appointed by the federation on differences between the miners and operators. The mines are operated by the Brazil block coal company. The trouble arises out of weights. The miners employ a check-weighman and the operators a weighman. The former looks after the interests of the miners, and the latter of the operators in weighing all coal mined and in giving proper credits. The check-weighman reports that for a month past all odd pounds on each mine car have been credited to the operators, by which the miners have lost from sixty to eighty tons. For this he was forbidden by the operators to check up wages, which meant his discharge. Hence the miners quit work. A mass meeting was held at the court house last night, in which the action of the committee was ratified by the miners. The season is too busy, however, for a protracted cessation of work and the arbitration commitees it is thought will soon adjust the difference.

ROBBED OF $100,000.

Miner T. Ames, the Chicago Millionaire, the Victim of a Trusted Clerk.

CHICAGO, Dec. 2.—The *Inter-Ocean* this morning says: Miner T. Ames, the millionaire coal merchant, and Theodore Mize, his confidential book keeper, and cashier and secretary of the Chicago and Winonk Coal and Coke company, is the perpetrator of a robbery estimated at $100,000, and may exceed that amount. Mize had absolute control of the money of the company and the private funds. Mr. Mize was a member of the Union Veteran club and Apollo club, being a singer of much ability, but in this case it is the old story, "Wine, women and ruin." His employer, Mr. Ames, had known him from his infancy, being an old friend of the young man's father, Edward Mize, formerly of Akron, Ohio, but now living in this city. Theodore has been in the employ of Mr. Ames since 1872. For twelve years he has been robbing his employer, covering up his dishonesty by false entries upon the books and by other schemes. A week ago Ames first discovered it and Mize confessed and turned over all the property he has as a part settlement.

PORTLAND, Me., Dec. 2.—The directors of the Canal National bank authorize the statement that Howard Blackstone, discount clerk, has embezzled funds of the bank to the amount of $25,000 and absconded.

THE NORTH POLE.

Gilder's Chances of Reaching It Said to Nothing at All.

NEW YORK, Dec. 2.—Lieut. A. W. Greeley, who is being feted and entertained in this city, was asked to-day what he thought the chances were of Col. W. H. Gilder reaching the north pole.

"I think they are nothing at all," said he. "I thought so when I heard that he had missed taking passage in that New London whaleship. That was his opportunity to get his stores and apparatus north. Going the way he subsequently took north, from Manitoba, it was impossible for him to carry as good an outfit as if he had gone by ship. If he can reach Marble Island, on the extreme northwest of Hudson's bay, where the whale ships winter, he may put himself in shape. He is above Fort York now. Gilder is a determined man, and knows what he has undertaken, but he has a tremendous task before him. Why, if he should succeed in making the trip to the poll and back we would not hear from him for at least three years. He asked my advice before he went. His plans for the trip differed from my ideas. Colonel Gilder's progress will be delayed in winter not so much by cold as by intense darkness. The nearest approach to the north pole made by Lieutenant Lockwood, of my party, on May 13, 1882, was 396 miles, or a distance no greater than from Albany to Washington."

FRIGHTFUL.

One Thousand Two Hundred French Soldiers Lost at Sea.

ALGIERS, Dec. 2.—It is reported that the steamship Crandernagar, with 1,200 French troops on board was foundered during a cyclone and all hands lost.

LONDON, Dec. 2.—Thirty men were mortally killed by an explosion in the Lemore colliery in Durham to-day.

The ancient church of St. Mary Magdalen, on Knightrider street, was partially destroyed by fire. The same fire completely destroyed four warehouses on the same street. Total loss, $500,000.

SHIPWRECKED.

An Unknown Schooner in Distress Off Stony Creek.

WATERTOWN, N. Y., Dec. 2.—An unknown schooner went ashore at 10:30 this morning off Stony Creek. She lay on the rocks with the waves breaking over her and is rapidly going to pieces. Three men and women are on board. The life saving crew from Big Sandy station have gone to attempt to rescue them.

DETROIT, Dec. 2.—A special to the *Evening Journal* from Manistee, Mich., says the schooner "Simpson" is anchored near old Free Soil between here and Ludington and the crew of the Life Saving service are on the beach ready to render assistance if necessary.

OSWEGO, N. Y., Dec. 2.—An unknown schooner, supposed to be "The Ariadne," has gone ashore in Mexico Bay. The crew is in the rigging.

A large two-story brick building and contents, owned by Wm. Breder & Co., glue manufacturers, was burned. It is supposed to have been of incendiary origin. Loss, $150,000.

The Weather.

WASHINGTON, Dec. 2.---The weather indications are as follows:

Indiana, fair weather, slightly colder.

Fort Wayne commandery, Knights Templar, meets to-night to confer the red cross degree and indulge in a banquet.

Summit City division, No. 170, will elect officers to-morrow night.

PROBABLY A STRIKE.

The Railroad Company Issues an Order to Collect Half Fare From Employes.

NEW YORK, Dec. 2.—The employes of the Philadelphia and Reading and Jersey Central railroad, with different divisions of the system, have been notified that all quarterly passes are to be returned at once, as none are good after November 30, 1886; that no employe will be allowed to ride free after November 30; that no employe will hereafter be allowed to live a distance from his place of work except by special permission from the head of his department or division superintendent, and when such special permission is given, a special ticket will be issued at half of the regular rates.

The indignation among the employes is very strong and trouble is feared. The engineers, it is said, have determined to call upon the order of Locomotive Engineers to aid them. Other employes of the roads are Knights of Labor and are said to have called meetings of their local assemblies in Jersey City to discuss the situation.

Big Failure.

NEVADA, W. Va., Dec. 2.—L. B. Frankel & Co., the oldest mining stock firm in West Virginia, failed this morning. Liabilities, $915,000.

Wm. Keefer, of this city, has been granted a pension at Washington.

At 3 o'clock this morning the thermometer in front of Thieme's drug store registered five degrees below zero.

The Mantell theatrical party are guests of the Aveline house. They play at Toledo to-morrow night.

The Liquor Dealers' association are after a young fellow who has been playing spy and filing affidavits against Sunday whisky sellers.

About 4,550 barrels, or twenty-six car loads of apples were shipped from the Grand Rapids depot this season, by dealers in Kendallville.

Mr. William H. Hartman, a brother of Mr. H. C. Hartman, of this city, has been appointed general superintendent of the St. Louis and Central Illinois railroad.

Frank Weldon, Frank Alderman, Geo. D. Adams, Frank Gibson, J. C. Peltier and H. O. Crosby are candidates for commander of Sion S. Bass post. J. C. Peltier, Joe. D. Adams and H. O. Crosby are candidates for vice-commander.

We notice by the Indianapolis *Journal* that Charles A. Arnold, of the Bluffton *Chronicle*, is a candidate for assistant clerk of the house of representatives. Mr. Arnold is competent, trustworthy and reliable and would make an excellent clerk.

A lady with the "Lost in London" party, booked for the Academy next week, was married to a liquor man between acts on a Chicago stage night before last. The man was her old lover and they met at Chicago. It is a nice advertising scheme.

The Bluffton *Times* says: "Frank T. Waring weighs but 120 pounds. Frank seems to think that the south is pretty well soaked with rheumatism if you should judge by his anxiety to get back. He is at present confined to his bed, but we expect to see him on the streets before long looking as well as ever."

Mr. Wm. Miller, the well known West Columbia street grocer, is lying at the point of death from Bright's disease. Mr. Miller has been a most enterprising citizen and driving merchant. Every one will regret to hear of his severe illness. He is unconscious, and has been for two days. He sits in a chair and nothing can arouse him from his seeming slumber.

"WASHINGTON by moonlight," says a correspondent, "is wonderfully beautiful. The moon tints to mellowness the rare old marble of the public buildings. It takes away the rustiness of the tomb-like Treasury, and puts life into the statues. The White House looks like a fairy palace under the rays of the moon, back in among those old forest trees."

THE MARKETS.

NEW YORK, Dec. 2.—Wheat, ½c@¾c higher, active business No. 2 red, December, 87½@86¾. Corn, ¾@¼c higher firm, 45½@48¼. Oats, ¼@½c higher 34@41.

CHICAGO.

CHICAGO, Dec. 2.—Wheat, strong, higher, 78. Corn, strong, higher, 38½. Oats, strong, 27¼.

WORK FOR CONGRESS

Some of the Bills That Will Engage the Attention and Time of the Two Houses.

WASHINGTON, Dec. 2.—More than 13,000 bills and joint resolutions were introduced into the two houses during the first session of congress. Of these, fewer than a thousand became laws. It is true that a good many of the bills still on the calendars are duplicates in the two houses, and that a good many of the measures introduced have been already finally disposed of by vetoes or by adverse action, either in the committees or the main bodies. There is also no time to be expended in organizing the house as during a first session. Still the calendars are overloaded with measures in all stages of advancement and more than sufficient to take up the time of several sessions. Various pension vetoes will confront congress to begin with. There is the question of the fisheries, which has been under consideration by a senate committee during the recess.

Our Mexican diplomacy, as illustrated by the Cutting case, will doubtless call for review. The Pan-electric investigation and the Garland business will quite surely occupy some attention. Mr. Blair's enormous pension bill and equally enormous educational projects ought to be suffered to rest in peace, as they have had more than their share of discussion. There are various bills to allot land in severality to Indians, and to provide for throwing open a part of the Indian territory to white settlement. Several important land grant forfeiture bills await consideration, as does also the bill prohibiting congressmen from acting as attorneys to land grant railways.

There is a Mexican pension bill now suspended between the senate and house, while several costly bills for pensions and equalizing bounties will probably try to get a hearing. There are resolutions for investigating strikes and the labor problem, which may take up time, even if they lead to nothing. The tariff projects and financial measures are legion, and doubtless more of them will be introduced.

The president told ex-Senator McDonald and Senator Voorhees the other day, in speaking of the civil-service law, that he did not intend to change his position, and that he had made pledges to the people which he proposed to carry out.

There is a very strong undercurrent of talk in favor of Martin A. Foran for the second place on the democratic ticket in 1888. The congressmen now here are not impressed with the idea that Indiana must name the vice-president, as usual.

The total receipts from the internal revenue during the first four months of the present fiscal year were $39,465,441, a decrease of $1,168,243 as compared with the receipts during the corresponding period last year. There was a decrease of $2,743,554 in collections from spirits; an increase of $308,477 from tobacco; an increase of $75,078 from fermented liquors, and an increase of $77,104 on miscellaneous items.

Mrs. John Davis, wife of Judge Davis, of the court of claims, has become a hopeless invalid. She has never recovered from the injuries received by being thrown from a drag at Lenox, Mass., last summer. A few days ago, in attempting for the first time to walk down stairs, she fell with a stroke of paralysis. The attack does not extend above the legs. The physician does not think Mrs. Davis will ever be able to walk again.

The cabinet meeting to-day was of short duration, all the members being present. The president's message was the only subject considered. The message is practically completed.

The president to-day issued a proclamation promulgating the extradition treaty with Japan, which was ratified after being amended by the senate last June.

An Independent Line.

ST. LOUIS, Dec. 2.—The St. Louis, Jerseyville and Springfield railroad, a portion of the Wabash system, extending from Bates, Ill., to Elsa, on the Mississippi river, and thence to Grafton, has been secured by a syndicate of St. Louis capitalists, who will operate the road independently hereafter under the name of the St. Louis and Central Illinois railroad.

The Cold Wave.

CHICAGO, Dec. 2.—The weather is clear and the temperature is two degrees below zero. At Dubuque, Iowa, it is ten below zero.

Daily Sentinel

THURSDAY, DEC. 2, 1886

LOCAL NEWS.

Prof. W. F. Yocum will attend a teachers institute at Columbia City December 27 to 31 inclusive.

The Kendallville band are making extensive preparations for holding a grand fair at Mitchel hall, December 25, closing January 1.

The state and metropolitan papers reproduced THE SENTINEL's item noting the fact that Mr. E. P. Williams gave $1,000 towards the Y. M. C. A. project.

Mrs. H. H. Barcus and daughter Edith, who have been visiting Mr. and Mrs. Richard Barcus, at Logansport, returned to their home in Fort Wayne yesterday.

The Kendallville *News* says: "Miss Kate Chapin, of Fort Wayne, spent a few days of last week with Miss Birdie Pepple, of this city.—E. H. Bookwalter, of Fort Wayne, was in the city yesterday."

The undertakers of LaGrange, Steuben, Noble and DeKalb counties, meet in convention at Avilla, Ind., next Tuesday, December 9, to organize a district association. Mr. J. C. Peltier may go up there.

A petition is being circulated in this and several adjoining counties, calling a meeting of the swine breeders, to be held at Goshen on the 15th of next month, for the purpose of organizing a local Breeders' association.

"Grant Roberts is lying quite sick at the home of his sister, Mrs. David Smith. He had been to Fort Wayne and was taken sick and got back that far and is not able to be removed to his home," says the Kendallville *News*.

Milo Holden, a young man residing at Rome City, got on a Grand Rapids train at that place, last Saturday, and rode some two miles north, and when getting off fell under the moving train. One leg was horribly crushed so that amputation will be necessary, and the other limb was broken.

Mr. Jack McClure, of this city, has been appointed master mechanic of the Wabash shops at Andrews and Charley Weaver has been appointed foreman of the Peru shops. Mr. McClure has been the new locomotive tester on the Wabash. Mr. Weaver is a prominent mechanic, and is a brother-in-law of Mr. T. E. Ellison, of this city.

There seems to be a common demand over the state this year on aliens for papers of citizenship. In Harrison county the man elected for recorder by the republicans can't show his papers and the democrat hangs on to the office. This new departure is owing to the discovery made on Captain White in this congressional district.

Justice Ryan actually lived in a forest of orange blossoms yesterday. He married three couples and sent them down life's stream to pluck thorns or posies, as the fates will it. The last named couple, Emmet Pauset add Mary Hazzard, had loved unwisely, but they buried their indiscretions in a wreath of orange blossoms and were sent out rejoicing with the merry throng.

Arthur Leturnan, a lad of ten years, a passenger on the east-bound passenger train on the Pittsburg, Fort Wayne and Chicago railway, while the train was passing through Inwood station, six miles east of Plymouth, at a high rate of speed, fell off. A freight train passing shortly afterward discovered him lying near the track, picked him up and brought him in. His injuries, strange to say, are not serious.

The Fort Wayne Chapter No. 19, Royal Arch Masons, elected the following officers last evening:

M. E. H. P., Wm. Geake.
King, Robert Liggett.
Scribe, Chas Read.
Captain of Host, James M. Henry.
Treasurer, A. D. Cressler.
Secretary, A. H. Dougall.
Trustees, S. B. Sweet, W. F. Heath, Allen H. Dougall.

The officers will be installed on Wednesday, December 15th, with a reception and banquet.

"Bob" Mantell stars in "Tangled Lives" at the Temple to-night. The part of Raymond Garth, who is the chief figure in the drama in question, is well suited to an actor of Mr. Mantell's abilities. It is emotional in the highest degree. Here, then, is a drama not without originality, ingenuity and force. The materials, however well worn they may be, are used with freshness and vigor, and the play, on the whole, is not without its serious interest for thoughtful observers, and it would be unfair not to recognize the genuinely conscientious manner in which the subject has been approached, or to deny that in human interest and in nearness to nature it stands head and shoulders above the ruck of dramatic composition of the day.

For 20 years years Henry F. Balcom, of Shirley, Mass., suffered with rheumatism. He found no relief till he took Hood's Sarsaparilla.

Nearly all trains were late this morning but were in good condition.

The Muskegon branch of the Grand Rapids and Indiana railroad was opened for travel yesterday.

The receipts of the freight office of the Pennsylvania company at Fort Wayne during the month of November amounted to $5,764.76.

THE SENTINEL dispatches accurately predicted this blizzard and our readers ought to appreciate such announcements twelve and twenty-four hours in advance.

Mr. Clarence Cook will to-morrow assume the city editorship of the *News*. Mr. Cook is a printer and formerly published the *World*. He is a very clever young man and will succeed in his new position.

Yesterday THE SENTINEL published on the inside page a statement from the Indianapolis *News* that Judge Lowry proposed to enjoin the issuance of an election certificate to Capt J. B. White. The denial of the Indianapolis *Journal* was also published on the first page, and now the Indianapolis *News* replies: "Congressman Lowry is quoted by the *Journal* as saying that he has no intention of bringing any form of contest against Captain White until congress meets. Mr. Lowry has evidently changed his mind greatly within two days, for on Monday evening he told Secretary Myers that the papers would be filed yesterday."

GIGANTIC!

Mayor Muhler Chats on the Great Exposition at Washington—Three Anniversaries of the United States and America to be Observed.

Mayor Muhler leaves for Washington, D. C., Saturday, to attend a meeting of the Board of Promotion in the interest of the forthcoming celebration of the great anniversaries of America at the national capital.

"And what is the board of promotion?" queried THE SENTINEL reporter, as he scanned the police court record in search of sinners.

"It is made up of a committee of citizens of Washington and Baltimore (who started the proposed celebration), the governors of forty-six states and territories, mayors of cities containing over 25,000 people, the president and secretaries of boards of trade, presidents and secretaries of state and territorial agricultural societies, masters and secretaries of state and territorial granges, and the regent and vice regents of the Mount Vernon Ladies' association of the Union."

"And the aims of this board and objects of the meeting December 7?"

"They are three-fold. First, a constitutional centennial celebration on the 4th of March, 1889, by the sixteen American republics in honor of the hundredth anniversary of the constitution of the parent republic—the United States. Second, a world's exposition from the first part of May, 1892, to the end of October, in honor of the 400th anniversary of the discovery of America. Third, a permanent exposition under government control of the industries of the Americas. Of the notices sent out to the different members of the board, 260 have signified their hearty approval and co-operation."

"Has the government taken any action in the matter?"

"At the last session of congress, Senator Gorman, of Maryland, introduced in the senate a resolution providing for the consideration of the project, accompanied by an address from the exposition board of promotion. Among the suggestions in this was that on March 4, 1889, the presidents of the thirteen Spanish-American republics be invited to visit Washington; further, for 1892, that the president of the United States, the president of the fifteen American sister republics, the emperor of Brazil, the governor general of Canada, the king of Italy, where Columbus was born, and the queen of Spain, from where he sailed, should unite in unveiling a colossal statue of the discoverer of America, to be located in the center of the permanent exposition grounds at Washington. Another suggestion is that of the new buildings suitable for a permanent exhibit of the resources be included arts and industries of the states and territories."

"Have any of the foreign governments given the matter any encouragement?"

"Yes, to a great extent, and the gigantic affair gives every promise of being carried out."

The mayor invited Mr. W. W. Rockhill to accompany him, but the genial clerk said he would not go unless the three expositions were given under the auspices of the Great Northern Indiana Fair association.

As any one knows, a good vegetable remedy is much more desirable, other things being equal, than a mineral remedy. The best vegetable remedy ever proposed for burns, bleedings, piles, sore and all pains and inflamations, is that old standard remedy Pond's Extract. It has the additional merit of being perfectly harmless. Be sure and get the genuine.

There was a law enacted in 1883 to take effect three years afterward (this year) requiring all lands and lots delinquent on taxes for three years to be by the auditor turned over to the prosecuting attorney; the prosecuting attorney to bring suit and foreclose the lien for taxes and order the property sold by the sheriff for whatever it will bring. The list will be delivered to the prosecutor and it embraces lots and lands that have gone delinquent out of carelessness. The only salvation is to pay up immediately.

PARTING lovers are sentimental, but a Massachusetts girl, on bidding good-by to her fiance, capped the climax by attracting his attention to the Great Dipper in the starry firmament. "You see the second star in the handle of the Dipper, don't you?" "Yes." "And you see that faint little star close to the second star?" "Yes, my dear." "Well, darling, that's me."

Don't let neuralgia and rheumatism get rooted in the system, but kill them with Salvation Oil.

Hot drinks should be avoided in cold weather. They have a tendency to weaken the lungs and throat. Take Dr. Bull's Cough Syrup for coughs.

ADVICE TO MOTHERS.—Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferers at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub wakes as "bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain relieves wind, regulates the bowels, and is the best known remedy for diarrhœa, whether arising from teething or other causes. Twenty-five cents a bottle.

HOMING PIGEONS.

A SPORT WHICH IS GROWING GRADUALLY INTO POPULAR FAVOR.

What These Winged Messengers Accomplished During the Paris Siege—Long Flights in America—A Pigeon's Speed and Endurance.

It was the Franco-Prussian war of 1870 that first brought to universal attention the value of carrier or homing pigeons as couriers. When Paris was besieged and all intercourse with the outer world cut off, pigeons were sent out of the city in balloons when the wind was favorable to take them into the outlying friendly country. Here they were captured and brought to a post where they were loaded with dispatches and allowed to return. As there was no other way possible to have messages delivered into Paris, the pigeon service was brought to a state of perfection within a month that it might have taken a century to accomplish under other circumstances. Sixty-four balloons bearing 363 birds were sent out of Paris. Fifty-seven of these birds returned to Paris bearing 150,000 official dispatches and over 1,000,000 private messages. The reduction of such a great mass of matter to packets light enough to be transported by pigeons was done by photography. The important papers of Europe, for instance, were spread out on a wall covering a space ten feet square, these were photographed to occupy space on a delicate collodion film the size of a postage stamp. A dozen of these films were inclosed in a quill and attached to a feather in the tail of the bird. On reaching its destination the films were taken from the quill, and through the aid of a magic lantern their contents were thrown on a large screen and hastily copied off and printed in the Parisian newspapers, while private messages were delivered to the persons to whom they were directed.

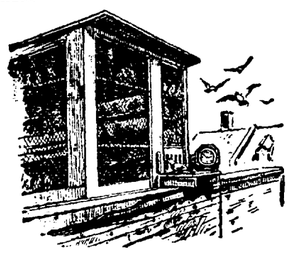

BASKET AND PAN.

"ARNOUX."

Thus were the possibilities of the pigeon post brought out. But the world has been slow to adopt this method of transmitting messages owing to the perfection of the telegraph and the invention of the telephone. Another serious drawback to the use of pigeons in some countries is the prevalence of fogs, which render it impossible for a bird to find its way. In America this drawback need not be considered, so that there is nothing to prevent a rather general adoption of homing pigeons when the uses to which they may be put become more generally known.

Although races of homing pigeons is the national sport in Belgium and portions of France, numerous public trials in this country have demonstrated that the atmosphere and climate is particularly well adapted to the development of great speed and certainty in the flights of these birds. The bird "Arnoux," whose portrait we give and which can be taken as an excellent type of a carrier, has made some remarkably long flights—one from Pensacola, Fla., to Newark, N. J., a distance of 1,010 miles, being twenty-six days out. But another Newark bird has recently returned from Montgomery, Ala., a distance of 866 miles, in four and one-quarter days. For shorter distances birds have returned over 500 miles in fourteen hours, their speed up to about 300 miles, being more than a mile per minute.

A PIGEON LOFT.

To establish a homing station old birds may be purchased, but they must be kept in confinement a long time before they become sufficiently "at home" in their new quarters to be trusted out. But their young can be set at liberty as soon as they are ready to fly, which is when a month or so old. Our illustration of a pigeon loft is from a photograph of one in Philadelphia. It is arranged so that the act of a bird alighting on the trap prior to entering the loft operates an instantaneous camera which photographs the bird and the clock at the same time, thereby recording automatically the precise moment that a racing bird reaches home.

Another illustration shows a net for catching a particular bird in a loft and a convenient basket for sending them on a train to the point of liberation. On the occasion of the late international yacht races birds have been used to bear dispatches from the yachts to the New York newspaper offices. We give an illustration of the method of tying up a bird for a reporter's use. This will suggest many ways in which a bird may be utilized on special occasions. There are many birds in use now bearing messages from city offices to country homes or factories. Recent experiments prove that a bird may be trained to take its food at one station and water at another, and that it will regularly each day fly from one to the other, thus establishing a reliable letter post.

FOR REPORTER'S USE.

The keeping and training of carrier pigeons is likely destined to become one of the pastimes of our people, and a stimulus in that direction will be the exhibition of these birds at the American Institute fair, New York.

Baroness Burdett-Coutts' Husband.

Mr. Bartlett, the young American snob who was espoused by the Baroness Burdett-Coutts, now rides in a carriage emblazoned with two coats of arms, his wife's and his own. The latter is surmounted by three crests—Bartlett, Burdett and Coutts.—London Letter.

ROBERT E. LEE, son of the famous Confederate General, still lives on a spacious farm, inherited, through his mother, from George Washington Parke Custis, to which he retired immediately after the surrender at Appomattox. It is at Rokonocke, five miles from West Point, in King William County, Virginia. His cottage home stands on a great bend of the Pamunky, about to join the York River; it is a snug bachelor retreat, and is furnished with many articles formerly at Mount Vernon. Among these are some handsome old-fashioned chairs, curious candlesticks, porcelain, and silverware. The cottage is five miles from any habitation. He began work on it with the assistance of only a negro servant who had been with him in the field. Robert Lee was a lad when his father fought the battle of Gettysburg, being in the ranks of an artillery company. He has done much to improve the land, and is kept very busy looking after it. He has various mementos of his father in the house, which are preserved with filial care. A fine portrait of the General hangs in the dining-room, also the sword which was not surrendered to Grant when Lee gave up the contest. Young Robert's tastes are entirely of a rural kind, and his world centers in the broad acres of his inheritance.

A CERTAIN editor of a weekly newspaper made a practice of "stopping the press to announce," if he had nothing more to announce than a dog-fight. One week everything was as dull as a Patent Office report, but the ruling passion cropped out as follows: "We stop the press to announce that nothing has occurred since we went to press of sufficient importance to induce us to stop the press to announce it."

The pain and misery suffered by those who are afflicted with dyspepsia are indescribable. The distress of the body is equalled or surpassed by the confusion and tortures of the mind, thus making its victims suffer double affliction. The relief that is given by Hood's Sarsaparilla has caused thousands to be thankful for this great medicine. It dispels the causes of dyspepsia, and tones up the digestive organs. Try Hood's Sarsaparilla.

ACCORDING to Humboldt, 44,000 pounds of bananas can be produced on the soil that would be required for 1,000 pounds of potatoes. The cultivation of the banana, with facilities for transportation and storage, has caused the fruit to be one of the most common and constant in the Northern markets.

Food for Consumptives.

Scott's Emulsion of Cod Liver Oil with Hypophosphites is a most wonderful remedy. It not only gives strength and increases the flesh but heals the irritation of the throat and lungs. Palatable as milk, and in all wasting diseases, both for adults and children, is a marvelous food and medicine.

THE one baby that is said to have been born at the White House was christened "Henry Walker," is now forty years old, and lives in Montgomery, Ala. His mother, a niece of President Polk, was visiting her uncle when Henry was born.

When Baby was sick, we gave her Castoria,
When she was a Child, she cried for Castoria,
When she became Miss, she clung to Castoria,
When she had Children, she gave them Castoria.

A BULLDOG objected to the bicycle riding of Montgomery Lightfoot, of Germantown, Pa., and attempted to pull him off his wheel by the leg. Not succeeding in this, he attempted to eat up the small wheel, and Montgomery took a tremendous header. Spectators drove off the dog, and the young man went home with a sprained wrist and an injured elbow.

A Cough, Cold or Sore Throat should not be neglected. Brown's Bronchial Troches are a simple remedy and give prompt relief. 25 cents a box.

THE only surviving daughter of the late Noah Webster says she saw her father work twenty-one years on his dictionary, and that she never knew him to have any assistance whatever in preparing it for publication. After he had worked two years he destroyed all he had written and began the work over again.

The Hop Plaster will cure Bach Ache, and all other pains instantly. 25 cents only, at druggists.

In the Dear Old Days.

We differ in creed and politics, but we are a unit all the same on the desirableness of a fine head of hair. If you mourn the loss oft his blessing and ornament, a bottle or two of Parker's Hair Balsam will make you look as you did in the dear old days. It is worth trying. It is the only standard 50c article for the hair.

What is a cold in the head? Medical authorities say it is due to atmospheric germs, uneven clothing of the body, rapid cooling when in a perspiration, etc. The important point is, that a cold in the head is a genuine rhinitis, an inflammation of the lining membrane of the nose, which, when unchecked, is certain to produce a catarrhal condition —for catarrh is essentially a "cold" which nature is no longer able to "resolve" or throw off. Ely's Cream Balm has proved its superiority, and sufferers from cold in the head should resort to it before that common ailment becomes seated and ends in obstinate catarrh.

The Fort Wayne parties who purchased the Van Orden ice house at Pleasant Lake are making extensive repairs, preparatory to refilling it when the ice harvest comes.

Mr. and Mrs. H. C. Graffe and daughter, Miss May, entertained the L'Orphelin club last evening in a pleasant way. The ladies devoted the afternoon to "the orphans" and progressive euchre and a nice luncheon were features of a most enjoyable evening.

Geo. LaDuke and Wm. Daugherty were "run in" for drunkenness last night by the police. Daugherty was not sober when he faced the mayor this morning and the blizzard was to him sunshine, while a fountain of bad whisky bubbled inside of him. The offenders were hustled to jail.

Anson L. Hassler, who instigated the charges against Rev. T. J. Bacher, used to be in the fence business. It seems he is also licensed to preach and was an applicant for a church at Bluffton. He is also credited with desiring Rev. Bacher's pastorate here. The trial will develop these charges.

Professor Kinsey, formerly of this city, is in trouble at Huntington. The professor is a barber and plays the base violin. He belongs to a church choir down there, and the gossips connect him with too much love making to a wayward sister, not yet seventeen years old. Kinsey is a married man and a church council is sitting on him.

A SAD CHAPTER.

Conductor Michael O'Rourke, of the Grand Rapids and Indiana Railroad, Likely to Die From His Injuries.

Mr. Michael O'Rourke, a freight conductor on the Grand Rapids road, had his left arm crushed between the elbow and the shoulder and was otherwise bruised while coupling cars at Decatur last night. He was working between his train to couple on a car load of stock, when another train drove the cars together and caught him with a vice-like grip between the deadwoods or "bumpers." His arm may have to be amputated at the shoulder and it is doubtful if he ilves, so serious are his internal injuries accruing from his awful squeeze. He is only conscious at times, and is cared for at his home on Montgomery street. He is a cousin of Superintendent P. S. O'Rourke and a brother-in-law of County Commissioner Brannan. His wife and four little children are at the bedside of the sufferer.

Dr. W. H. Meyers is attending Mr. O'Rourke. He will not only save his life, but will attempt to save his arm. He put away portions of the lacerated muscles and unmoved the elbow joint altogether. He hopes to create a new union if no bad results set in. Mr. O'Rourke suffers from recurring chills.

Yesterday was a bad day for railroad men. THE SENTINEL noted the injury to E. N. Miller, a Grand Rapids brakeman, but besides two other casualties occurred. H. Knox, a laborer in the Pittsburg and Fort Wayne lumber yards, had his hands badly crushed by falling timber, and J. S. Todd, a brakeman on the Pittsburg and Fort Wayne road, was severely injured by falling backward from the top of a car while the train was in motion. He was brought to his home here.

HE WAS CROOKED.

Postal Messenger Elwood Nabbed for Stealing $40 from a Letter Addressed to H. G. Olds.

This morning Mr. H. G. Olds received from St. Bethleham, Tenn., a registered letter. Postmaster Kaough delivered the pouch in person and saw its contents counted, noting a shortage of $40 in the amount due therein. He informed Mr. Olds that the missing money would be restored to him by F. N. Bassett, a postal inspector, who detected a train messenger named Elwood in the theft and recovered from him the $40 stolen from the letter in question. Elwood runs on the Grand Rapids road through Fort Wayne and coming from Cincinnati yesterday he twisted the greenbacks from the envelope. He is guilty of other thefts, but was nipped in this act by one of Uncle Sam's minions. Elwood is an old republican messenger and we do not anticipate that it will be necessary to file charges of offensive partisanship to accomplish his removal. The fellow is held at Grand Rapids and probably he will be disposed of there as he confesses and repents his rash acts.

A telegram from Grand Rapids to THE SENTINEL says: "A. H. Elwood, a mail agent on the Grand Rapids and Indiana road between here and Cincinnati was arrested this morning, charged with systematically robbing letters. Seventy-five marked bills were found in his possession. He confesses th everything. His home is at Silver Creek, Ind. He has a wife and three children, he was appointed four years, is fifty years old, a veteran soldier and in poor health. He said he was led to steal by financial straits."

HANGED BY A MOB.

A Colored Prisoner Taken from Jail and Lynched.

ARKANSAS CITY, Ark., Dec. 2.—Early yesterday morning a party of masked men surrounded the jail at Monticello, the county seat of Drew county, and demanded from the jailor the surrender of Buck Hunter, a colored man, who was charged with assault with intent to kill on two respected citizens of that county. Finding resistance worse than useless the jailor surrendered the key to the cell in which the man was confined and the mob seized Hunter, placed a rope around his neck and led him out into the suburbs of the town, where they strung him to a limb. To make sure of their work they then emptied their shot guns into the suspended body.

The Amsterdam Strike.

AMSTERDAM, Dec. 2.—The Knights of Labor claim that their condition is all that could be desired, while the association of manufacturers declare the backbone of the organization in this city is broken. Over 1,000 hands are now at work and every mill has a long list of applicants for work. The manufacturers assert that before the close of the week the Knights of Labor will be unable to control its individual members and in a few more days the mills will be all running to their full capacity.

A NEW PARTY.

A Movement for the Organization of the National Union Labor Party.

PITTSBURG, Dec. 2.—A circular has just been issued by the national committee of the united labor organs, containing a declaration of their principles and the objects of the industrial movement to form a national union labor party at the convention to be held at Cincinnati February 22, 1887. Representatives have been appointed to represent the various organizations. The basis of representation gives each congressional district one representative for each of the following orders or organizations in such districts: Knights of Labor, trades unions, greenback labor party, farmers alliance, granges and patrons of husbandry, anti-monopoly leagues, people's party, farmers and laborers co-operative union, agricultural wheels, soldiers organizations and all other organizations which indorse and subscribe to the new declaration of independence.

HOOSIER STRIKE.

The Miners at Brazil Walk Out Against Unjust Weights.

BRAZIL, Ind., Dec. 2.—The miners employed in the Campbell and Bartlett mines, 250 in number, threw down their picks at noon yesterday and came out of the mines, at the order of the committee appointed by the federation on differences between the miners and operators. The mines are operated by the Brazil block coal company. The trouble arises out of weights. The miners employ a check-weighman and the operators a weighman. The former looks after the interests of the miners, and the latter of the operators in weighing all coal mined and in giving proper credits. The check-weighman reports that for a month past all odd pounds on each mine car have been credited to the operators, by which the miners have lost from sixty to eighty tons. For this he was forbidden by the operators to check up wages, which meant his discharge. Hence the miners quit work. A mass meeting was held at the court house last night, in which the action of the committee was ratified by the miners. The session is too busy, however, for a protracted cessation of work and the arbitration committee it is thought will soon adjust the difference.

ROBBED OF $100,000.

Miner T. Ames, the Chicago Millionaire, the Victim of a Trusted Clerk.

CHICAGO, Dec. 2.—The *Inter-Ocean* this morning says: Miner T. Ames, the millionaire coal merchant, and Theodore Mize, his confidential book keeper, and cashier and secretary of the Chicago and Winona Coal and Coke company, is the perpetrator of a robbery estimated at $100,000, and may exceed that amount. Mize had absolute control of the money of the company and the private funds. Mr. Mize was a member of the Union Veteran club and Apollo club, being a singer of much ability, but in this case it is the old story, "Wine, women and ruin." His employer, Mr. Ames, had known him from his infancy, being an old friend of the young man's father, Edward Mize, formerly of Akron, Ohio, but now living in this city. Theodore has been in the employ of Mr. Ames since 1872. For twelve years he has been robbing his employer, covering up his dishonesty by false entries upon the books and by other schemes. A week ago Ames first discovered it and Mize confessed and turned over all the property he has as a part settlement.

PORTLAND, Me., Dec. 2.—The directors of the Canal National bank authorize the statement that Howard Blackstone, discount clerk, has embezzled funds of the bank to the amount of $25,000 and absconded.

THE NORTH POLE.

Gilder's Chances of Reaching It Said to Nothing at All.

NEW YORK, Dec. 2.—Lieut. A. W. Greeley, who is being feted and entertained in this city, was asked to-day what he thought the chances were of Col. W. H. Gilder reaching the north pole.

"I think they are nothing at all," said he. "I thought so when I heard that he had missed taking passage in that New London whaleship. That was his opportunity to get his stores and apparatus north. Going the way he subsequently took north, from Manitoba, it was impossible for him to carry as good an outfit as if he had gone by ship. If he can reach Marble Island, on the extreme northwest of Hudson's bay, where the whale ships winter, he may put himself in shape. He is above Fort York now. Gilder is a determined man, and knows what he has undertaken, but he has a tremendous task before him. Why, if he should succeed in making the trip to the pole and back we would not hear from him for at least three years. He asked my advice before he went. His plans for the trip differed from my ideas. Colonel Gilder's progress will be delayed in winter not so much by cold as by intense darkness. The nearest approach to the north pole made by Lieutenant Lockwood, of my party, on May 13, 1882, was 396 miles, or a distance no greater than from Albany to Washington."

FRIGHTFUL.

One Thousand Two Hundred French Soldiers Lost at Sea.

ALGIERS, Dec. 2.—It is reported that the steamship Crandernagar, with 1,200 French troops on board was founderd during a cyclone and all hands lost.

LONDON, Dec. 2.—Thirty men were mortally killed by an explosion in the Lemore colliery in Durham to-day.

The ancient church of St. Mary Magdalen, on Knightrider street, was partially destroyed by fire. The same fire completely destroyed four warehouses on the same street. Total loss, $500,000.

SHIPWRECKED.

An Unknown Schooner in Distress Off Stony Creek.

WATERTOWN, N. Y., Dec. 2.—An unknown schooner went ashore at 10:30 this morning off Stony Creek. She lay on the rocks with the waves breaking over her and is rapidly going to pieces. Three men and women are on board. The life saving crew from Big Sandy station have gone to attempt to rescue them.

DETROIT, Dec. 2.—A special to the *Evening Journal* from Manistee, Mich., says the schooner "Simpson" is ashored near old Free Soil between here and Ludington and the crew of the Life Saving service are on the beach ready to render assistance if necessary.

OSWEGO, N. Y., Dec. 2.—An unknown schooner, supposed to be "The Arisano," has gone ashore in Mexico Bay. The crew is in the rigging.

A large two-story brick building and contents, owned by Wm. Breder & Co., glue manufacturers, was burned. It is supposed to have been of incendiary origin. Loss, $150,000.

The Weather.

WASHINGTON, Dec. 2.—The weather indications are as follows:

Indiana, fair weather, slightly colder.

Fort Wayne commandery, Knights Templar, meets to-night to confer the red cross degree and indulge in a banquet.

Summit City division, No. 170, will elect officers to-morrow night.

PROBABLY A STRIKE.

The Railroad Company Issues an Order to Collect Half Fare From Employes.

NEW YORK, Dec. 2.—The employes of the Philadelphia and Reading and Jersey Central railroad, with different divisions of the system, have been notified that all quarterly passes are to be returned at once, as none are good after November 30, 1886; that no employe will be allowed to ride free after November 30; that no employe will hereafter be allowed to live a distance from his place of work except by special permission from the head of his department or division superintendent, and when such special permission is given, a special ticket will be issued at half of the regular rates.

The indignation among the employes is very strong and trouble is feared. The engineers, it is said, have determined to call upon the order of Locomotive Engineers to aid them. Other employes of the roads are Knights of Labor and are said to have called meetings of their local assemblies in Jersey City to discuss the situation.

Big Failure.

NEVADA, W. Va., Dec. 2.—L. B. Frankel & Co., the oldest mining stock firm in West Virginia, failed this morning. Liabilities, $915,000.

Wm. Keefer, of this city, has been granted a pension at Washington.

At 3 o'clock this morning the thermometer in front of Thieme's drugstore registered five degrees below zero.

The Mantell theatrical party are guests of the Aveline house. They play at Toledo to-morrow night.

The Liquor Dealers' association are after a young fellow who has been playing spy and filing affidavits against Sunday whisky sellers.

About 4,550 barrels, or twenty-six car loads of apples were shipped from the Grand Rapids depot this season, by dealers in Kendallville.

Mr. William H. Hartman, a brother of Mr. H. O. Hartman, of this city, has been appointed general superintendent of the St. Louis and Central Illinois railroad.

Frank Weldon, Frank Alderman, Geo. D. Adams, Frank Gibson, J. C. Peltier and H. O. Crosby are candidates for commander of Sion S. Bass post. J. C. Peltier, Jos. D. Adams and H. O. Crosby are candidates for vice-commander.

We notice by the Indianapolis *Journal* that Charles A. Arnold, of the Bluffton *Chronicle*, is a candidate for assistant clerk of the house of representatives. Mr. Arnold is competent, trustworthy and reliable and would make an excellent clerk.

A lady with the "Lost in London" party, booked for the Academy next week, was married to a liquor man between acts on a Chicago stage night before last. The man was her old lover and they met at Chicago. It is a nice advertising scheme.

The Bluffton *Times* says: "Frank T. Waring weighs but 120 pounds. Frank seems to think that the south is pretty well soaked with rheumatism if you should judge by his anxiety to get back. He is at present confined to his bed, but we expect to see him on the streets before long looking as well as ever."

Mr. Wm. Miller, the well known West Columbia street grocer, is lying at the point of death from Bright's disease. Mr. Miller has been a most enterprising citizen and driving merchant. Every one will regret to hear of his severe illness. He is unconscious, and has been for two days. He sits in a chair and nothing can arouse him from his seeming slumber.

"WASHINGTON by moonlight," says a correspondent, "is wonderfully beautiful. The moon tints to mellowness the rare old marble of the public buildings. It takes away the rustiness of the tomb-like Treasury, and puts life into the statues. The White House looks like a fairy palace under the rays of the moon, back in among those old forest trees."

WORK FOR CONGRESS

Some of the Bills That Will Engage the Attention and Time of the Two Houses.

WASHINGTON, Dec. 2.—More than 18,000 bills and joint resolutions were introduced into the two houses during the first session of congress. Of these, fewer than a thousand became laws. It is true that a good many of the bills still on the calendars are duplicates in the two houses, and that a good many of the measures introduced have been already finally disposed of by vetoes or by adverse action, either in the committees or the main bodies. There is also no time to be expended in organizing the house as during a first session. Still the calendars are overloaded with measures in all stages of advancement and more than sufficient to take up the time of several sessions. Various pension vetoes will confront congress to begin with. There is the question of the fisheries, which has been under consideration by a senate committee during the recess.

Our Mexican diplomacy, as illustrated by the Cutting case, will doubtless call for review. The Pan-electric investigation and the Garland business will quite surely occupy some attention. Mr. Blair's enormous pension bill and equally enormous educational projects ought to be suffered to rest in peace, as they have had more than their share of discussion. There are various bills to allot land in severality to Indians, and to provide for throwing open a part of the Indian territory to white settlement. Several important land grant forfeiture bills await consideration, as does also the bill prohibiting congressmen from acting as attorneys to land grant railways.

There is a Mexican pension bill now suspended between the senate and house, while several costly bills for pensions and equalizing bounties will probably try to get a hearing. There are resolutions for investigating strikes and the labor problem, which may take up time, even if they lead to nothing. The tariff projects and financial measures are legion, and doubtless more of them will be introduced.

The president told ex-Senator McDonald and Senator Voorhees the other day, in speaking of the civil-service law, that he did not intend to change his position, and that he had made pledges to the people which he proposed to carry out.

There is a very strong undercurrent of talk in favor of Martin A. Foran for the second place on the democratic ticket in 1888. The congressmen now here are not impressed with the idea that Indiana must name the vice-president, as usual.

The total receipts from the internal revenue during the first four months of the present fiscal year were $39,465,441, a decrease of $1,168,243 as compared with the receipts during the corresponding period last year. There was a decrease of $2,743,554 in collections from spirits; an increase of $368,477 from tobacco; an increase of $75,078 from fermented liquors, and an increase of $77,104 on miscellaneous items.

Mrs. John Davis, wife of Judge Davis, of the court of claims, has become a hopeless invalid. She has never recovered from the injuries received by being thrown from a drag at Lenox, Mass., last summer. A few days ago, in attempting for the first time to walk down stairs, she fell with a stroke of paralysis. The attack does not extend above the legs. The physician does not think Mrs. Davis will ever be able to walk again.

The cabinet meeting to-day was of short duration, all the members being present. The president's message was the only subject considered. The message is practically completed.

The president to-day issued a proclamation promulgating the extradition treaty with Japan, which was ratified after being amended by the senate last June.

An Independent Line.

ST. LOUIS, Dec. 2.—The St. Louis, Jerseyville and Springfield railroad, a portion of the Wabash system, extending from Bates, Ill., to Elsa, on the Mississippi river, and thence to Grafton, has been secured by a syndicate of St. Louis capitalists, who will operate the road independently hereafter under the name of the St. Louis and Central Illinois railroad.

The Cold Wave.

CHICAGO, Dec. 2.—The weather is clear and the temperature is two degrees below zero. At Dubuque, Iowa, it is ten below zero.

Daily Sentinel

THURSDAY, DEC. 2, 1886

LOCAL NEWS.

Prof. W. F. Yocum will attend a teachers institute at Columbia City December 27 to 31 inclusive.

The Kendallville band are making extensive preparations for holding a grand fair at Mitchel hall, December 25, closing January 1.

The state and metropolitan papers reproduced THE SENTINEL'S item noting the fact that Mr. E. P. Williams gave $1,000 towards the Y. M. C. A. project.

Mrs. H. H. Barcus and daughter Edith, who have been visiting Mr. and Mrs. Richard Barcus, at Logansport, returned to their home in Fort Wayne yesterday.

The Kendallville *News* says: "Miss Kate Chapin, of Fort Wayne, spent a few days of last week with Miss Birdie Pepple, of this city.—E. H. Bookwalter, of Fort Wayne, was in the city yesterday."

The undertakers of LaGrange, Steuben, Noble and DeKalb counties, meet in convention at Avilla, Ind., next Tuesday, December 9, to organize a district association. Mr. J. C. Peltier may go up there.

A petition is being circulated in this and several adjoining counties, calling a meeting of the swine breeders, to be held at Goshen on the 15th of next month, for the purpose of organizing a local Breeders' association.

"Grant Roberts is lying quite sick at the home of his sister, Mrs. David Smith. He had been to Fort Wayne and was taken sick and got back that far and is not able to be removed to his home," says the Kendallville *News*.

Milo Holden, a young man residing at Rome City, got on a Grand Rapids train at that place, last Saturday, and rode some two miles north, and when getting off fell under the moving train. One leg was horribly crushed so that amputation will be necessary, and the other limb was broken.

Mr. Jack McClure, of this city, has been appointed master mechanic of the Wabash shops at Andrews and Charley Weaver has been appointed foreman of the Peru shops. Mr. McClure has been the new locomotive tester on the Wabash. Mr. Weaver is a prominent mechanic, and is a brother-in-law of Mr. T. E. Ellison, of this city.

There seems to be a common demand over the state this year on aliens for papers of citizenship. In Harrison county the man elected for recorder by the republicans can't show his papers and the democrat hangs on to the office. This new departure is owing to the discovery made on Captain White in this congressional district.

Justice Ryan actually lived in a forest of orange blossoms yesterday. He married three couples and sent them down life's stream to pluck thorns or posies, as the fates will it. The last named couple, Emmet Pansel and Mary Hazzard, had loved unwisely, but they buried their indiscretions in a wreath of orange blossoms and were sent out rejoicing with the merry throng.

Arthur Leturnan, a lad of ten years, a passenger on the east-bound passenger train on the Pittsburg, Fort Wayne and Chicago railway, while the train was passing through Inwood station, six miles east of Plymouth, at a high rate of speed, fell off. A freight train passing shortly afterward discovered him lying near the track, picked him up and brought him in. His injuries, strange to say, are not serious.

The Fort Wayne Chapter No. 19, Royal Arch Masons, elected the following officers last evening:

M. E. H. P., Wm. Geake,
King, Robert Liggett,
Scribe, Chas Read.
Captain of Host, James M. Henry.
Treasurer, A. D. Cressler.
Secretary, A. H. Dougall.
Trustees, S. B. Sweet, W. F. Heath, Allen H. Dougall.

The officers will be installed on Wednesday, December 15th, with a reception and banquet.

"Bob" Mantell stars in "Tangled Lives" at the Temple to-night. The part of Raymond Garth, who is the chief figure in the drama in question, is well suited to an actor of Mr. Mantell's abilities. It is emotional in the highest degree. Here, then, is a drama not without originality, ingenuity and force. The materials, however well worn they may be, are used with freshness and vigor, and the play, on the whole, is not without its serious interest for thoughtful observers, and it would be unfair not to recognize the genuinely conscientious manner in which the subject has been approached, or to deny that in human interest and in nearness to nature it stands head and shoulders above the ruck of dramatic composition of the day.

For 20 years years Henry F. Balcom, of Shirley, Mass., suffered with rheumatism. He found no relief till he took Hood's Sarsaparilla.

Nearly all trains were late this morning but were in good condition.

The Muskegon branch of the Grand Rapids and Indiana railroad was opened for travel yesterday.

The receipts of the freight office of the Pennsylvania company at Fort Wayne during the month of November amounted to $5,764.76.

THE SENTINEL dispatches accurately predicted this blizzard and our readers ought to appreciate such announcements twelve and twenty-four hours in advance.

Mr. Clarence Cook will to-morrow assume the city editorship of the *News*. Mr. Cook is a printer and formerly published the *World*. He is a very clever young man and will succeed in his new position.

Yesterday THE SENTINEL published on the inside page a statement from the Indianapolis *News* that Judge Lowry proposed to enjoin the issuance of an election certificate to Capt J. B. White. The denial of the Indianapolis *Journal* was also published on the first page, and now the Indianapolis *News* replies: "Congressman Lowry is quoted by the *Journal* as saying that he has no intention of bringing any form of contest against Captain White until congress meets. Mr. Lowry has evidently changed his mind greatly within two days, for on Monday evening he told Secretary Myers that the papers would be filed yesterday."

GIGANTIC!

Mayor Muhler Chats on the Great Exposition at Washington—Three Anniversaries of the United States and America to be Observed.

Mayor Muhler leaves for Washington, D. C., Saturday, to attend a meeting of the Board of Promotion in the interest of the forthcoming celebration of the great anniversaries of America at the national capital.

"And what is the board of promotion?" queried THE SENTINEL reporter, as he scanned the police court record in search of sinners.

"It is made up of a committee of citizens of Washington and Baltimore (who started the proposed celebration), the governors of forty-six states and territories, mayors of cities containing over 25,000 people, the president and secretaries of boards of trade, presidents and secretaries of state and territorial agricultural societies, masters and secretaries of state and territorial granges, and the regent and vice regents of the Mount Vernon Ladies' association of the Union."

"And the aims of this board and objects of the meeting December 7?"

"They are three-fold. First, a constitutional centennial celebration on the 4th of March, 1889, by the sixteen American republics in honor of the hundredth anniversary of the constitution of the parent republic—the United States. Second, a world's exposition from the first part of May, 1892, to the end of October, in honor of the 400th anniversary of the discovery of America. Third, a permanent exposition under government control of the industries of the Americas. Of the notices sent out to the different members of the board, 260 have signified their hearty approval and co-operation."

"Has the government taken any action in the matter?"

"At the last session of congress, Senator Gorman, of Maryland, introduced in the senate a resolution providing for the consideration of the project, accompanied by an address from the exposition board of promotion. Among the suggestions in this was that on March 4, 1889, the presidents of the thirteen Spanish-American republics be invited to visit Washington; further, for 1892, that the president of the United States, the president of the fifteen American sister republics, the emperor of Brazil, the governor general of Canada, the king of Italy, where Columbus was born, and the queen of Spain, from where he sailed, should unite in unveiling a colossal statue of the discoverer of America, to be located in the center of the permanent exposition grounds at Washington. Another suggestion is that of the new buildings suitable for a permanent exhibit of the resources be included arts and industries of the states and territories."

"Have any of the foreign governments given the matter any encouragement?"

"Yes, to a great extent, and the gigantic affair gives every promise of being carried out."

The mayor invited Mr. W. W. Rockhill to accompany him, but the genial clerk said he would not go unless the three expositions were given under the auspices of the Great Northern Indiana Fair association.

As any one knows, a good vegetable remedy is much more desirable, other things being equal, than a mineral remedy. The best vegetable remedy ever proposed for burns, bleedings, piles, sore and all pains and Inflammations, is that old standard remedy Pond's Extract. It has the additional merit of being perfectly harmless. Be sure and get the genuine.

There was a law enacted in 1883 to take effect three years afterward (this year) requiring all lands and lots delinquent on taxes for three years to be by the auditor turned over to the prosecuting attorney; the prosecuting attorney to bring suit and foreclose the lien for taxes and order the property sold by the sheriff for whatever it will bring. The list will be delivered to the prosecutor and it embraces lots and lands that have gone delinquent out of carelessness. The only salvation is to pay up immediately.

PARTING lovers are sentimental, but a Massachusetts girl, on bidding good-by to her fiance, capped the climax by attracting his attention to the Great Dipper in the starry firmament. "You are the second star in the handle of the Dipper, don't you?" "Yes." "And you see that faint little star close to the second star?" "Yes, my dear." "Well, darling, that's me."

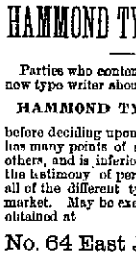

Don't let neuralgia and rheumatism get rooted in the system, but kill them with Salvation Oil.

Hot drinks should be avoided in cold weather. They have a tendency to weaken the lungs and throat. Take Dr. Bull's Cough Syrup for coughs.

ADVICE TO MOTHERS.—Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferers at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub wakes as "bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain relieves wind, regulates the bowels, and is the best known remedy for diarrhœa, whether arising from teething or other causes. Twenty-five cents a bottle.

ST. JACOBS OIL

FOR PAINS AND ACHES.

MAGICAL CURES.

Useless Arm Cured.
5 Newark St., Hoboken, N. J.
I was taken with severe pains in my left shoulder and right arm. I used everything without improving. My arm was becoming of no use to me. I finally tried St. Jacobs Oil, and before the first bottle was used I was relieved as if by magic. WILLIAM HERSEE.

Crazy with Toothache and Cured.
Collingswood, N. Y.
I was nearly crazy with toothache, and tried everything I thought would cure me, without relief. Bought a bottle of St. Jacobs Oil, saturated a rag with it, tried it to my face, and in two hours the pain left me.
HENRY SAMUEL, JR.

Intense Pain in the Back Cured.
Greenville, Cal.
Mrs. A. Williams suffered intensely for three days with pains in the back. The case had assumed an alarming stage and she was delirious. Many remedies were tried without relief, when a single application of St. Jacobs Oil was made. The patient slept soundly and got up well.

Swollen Knees Cured.
Johnstown, N. Y.

Pains in the Shoulder Cured.
Canajoharie, N. Y.
I was awakened at midnight with severe pains in my left shoulder. I had left my office with my head turned to one side. I bought a bottle of St. Jacobs Oil, and it worked like magic. In three hours all pain had ceased. W. F. COOK,

Ladies

Do you want a pure, blooming Complexion? If so, a few applications of Hagan's MAGNOLIA BALM will gratify you to your heart's content. It does away with Sallowness, Redness, Pimples, Blotches, and all diseases and imperfections of the skin. It overcomes the flushed appearance of heat, fatigue and excitement. It makes a lady of THIRTY appear but TWENTY; and so natural, gradual, and perfect are its effects, that it is impossible to detect its application.

MADAME MORA'S CORSETS.

MOST COMFORTABLE AND PERFECT FITTING. Merchants say they give better satisfaction than any corset they ever sold. Dressmakers recommend them for their fine shape. Cannot break over hips. HOMING PIGEONS.

A SPORT WHICH IS GROWING GRADUALLY INTO POPULAR FAVOR.

What These Winged Messengers Accomplished During the Paris Siege—Long Flights to America—A Pigeon's Speed and Endurance.

It was the Franco-Prussian war of 1870 that first brought to universal attention the value of carrier or homing pigeons as couriers. When Paris was besieged and all intercourse with the outer world cut off, pigeons were sent out of the city in balloons when the wind was favorable to take them into the outlying friendly country. Here they were captured and brought to a post where they were loaded with dispatches and allowed to return. As there was no other way possible to have messages delivered into Paris, the pigeon service was brought to a state of perfection within a month that it might have taken a century to accomplish under other circumstances. Sixty-four balloons bearing 363 birds were sent out of Paris. Fifty-seven of these birds returned to Paris bearing 150,000 official dispatches and over 1,000,000 private messages. The reduction of such a great mass of matter to packets light enough to be transported by pigeons was done by photography. The important papers of Europe, for instance, were spread out on a wall covering a space ten feet square, these were photographed to occupy space on a delicate collodion film the size of a postage stamp. A dozen of these films were inclosed in a quill and attached to a feather in the tail of the bird. On reaching its destination the films were taken from the quill, and through the aid of a magic lantern their contents were thrown on a large screen and hastily copied off and printed in the Parisian newspapers, while private messages were delivered to the persons to whom they were directed.

BASKET AND PAN.

"ARNOUX."

Thus were the possibilities of the pigeon post brought out. But the world has been slow to adopt this method of transmitting messages owing to the perfection of the telegraph and the invention of the telephone. Another serious drawback to the use of pigeons in some countries is the prevalence of fogs, which render it impossible for a bird to find its way. In America this drawback need not be considered, so that there is nothing to prevent a rather general adoption of homing pigeons when the uses to which they may be put become more generally known.

Although races of homing pigeons is the national sport in Belgium and portions of France, numerous public trials in this country have demonstrated that the atmosphere and climate is particularly well adapted to the development of great speed and certainty in the flights of these birds. The bird "Arnoux," whose portrait we give and which can be taken as an excellent type of a carrier, has made some remarkably long flights—one from Pensacola, Fla., to Newark, N. J., a distance of 1,010 miles, being twenty-six days out. But another Newark bird has recently returned from Montgomery, Ala., a distance of 800 miles, in four and one-quarter days. For shorter distances birds have returned over 500 miles in fourteen hours, their speed up to about 300 miles, being more than a mile per minute.

A PIGEON LOFT.

To establish a homing station old birds may be purchased, but they must be kept in confinement a long time before they become sufficiently "at home" in their new quarters to be trusted out. But their young can be set at liberty as soon as they are ready to fly, which is when a month or so old. Our illustration of a pigeon loft is from a photograph of one in Philadelphia. It is arranged so that the act of a bird alighting on the trap prior to entering the loft operates an instantaneous camera which photographs the bird and the clock at the same time, thereby recording automatically the precise moment that a racing bird reaches home.

Another illustration shows a net for catching a particular bird in a loft and a convenient basket for sending them on a train to the point of liberation. On the occasion of the late international yacht races birds have been used to bear dispatches from the yachts to the New York newspaper offices. We give an illustration of the method of tying up a bird for a reporter's use. This will suggest many ways in which a bird may be utilized on special occasions. There are many birds in use now bearing messages from city offices to country homes or factories. Recent experiments prove that a bird may be trained to take its food at one station and water at another, and that it will regularly each day fly from one to the other, thus establishing a reliable letter post.

FOR REPORTER'S USE.

The keeping and training of carrier pigeons is likely destined to become one of the pastimes of our people, and a stimulus in that direction will be the exhibition of these birds at the American Institute fair, New York.

Baroness Burdett-Coutts' Husband.

Mr. Bartlett, the young American snob who was espoused by the Baroness Burdett-Coutts, now rides in a carriage emblazoned with two coats of arms, his wife's and his own. The latter is surmounted by three crests—Bartlett, Burdett and Coutts.—London Letter.

Robert E. Lee, son of the famous Confederate General, still lives on a spacious farm, inherited, through his mother, from George Washington Parke Custis, to which he retired immediately after the surrender at Appomattox. It is at Rokonocke, five miles from West Point, in King William County, Virginia. His cottage home stands on a great bend of the Pamunky, about to join the York River; it is a snug bachelor retreat, and is furnished with many articles formerly at Mount Vernon. Among these are some handsome old-fashioned chairs, curious candlesticks, porcelain, and silverware. The cottage is five miles from any habitation. He began work on it with the assistance of only a negro servant who had been with him in the field. Robert Lee was a lad when his father fought the battle of Gettysburg, being in the ranks of an artillery company. He has done much to improve the land, and is kept very busy looking after it. He has various mementos of his father in the house, which are preserved with filial care. A fine portrait of the General hangs in the dining-room, also the sword which was not surrendered to Grant when Lee gave up the contest. Young Robert's tastes are entirely of a rural kind, and his world centers in the broad acres of his inheritance.

A certain editor of a weekly newspaper made a practice of "stopping the press to announce," if he had nothing more to announce than a dog-fight. One week everything was as dull as a Patent Office report, but the ruling passion cropped out as follows: "We stop the press to announce that nothing has occurred since we went to press of sufficient importance to induce us to stop the press to announce it."

The pain and misery suffered by those who are afflicted with dyspepsia are indescribable. The distress of the body is equalled or surpassed by the confusion and tortures of the mind, thus making its victims suffer double affliction. The relief that is given by Hood's Sarsaparilla has caused thousands to be thankful for this great medicine. It dispels the causes of dyspepsia, and tones up the digestive organs. Try Hood's Sarsaparilla.

According to Humboldt, 44,000 pounds of bananas can be produced on the soil that would be required for 1,000 pounds of potatoes. The cultivation of the banana, with facilities for transportation and storage, has caused the fruit to be one of the most common and constant in the Northern markets.

Food for Consumptives.

Scott's Emulsion of Cod Liver Oil with Hypophosphites is a most wonderful remedy. It not only gives strength and increases the flesh but heals the irritation of the throat and lungs. Palatable as milk, and in all wasting diseases, both for adults and children, is a marvelous food and medicine.

The one baby that is said to have been born at the White House was christened "Henry Walker," is now forty years old, and lives in Montgomery, Ala. His mother, a niece of President Polk, was visiting her uncle when Henry was born.

When Baby was sick, we gave her Castoria,
When she was a Child, she cried for Castoria,
When she became Miss, she clung to Castoria,
When she had Children, she gave them Castoria,

A bulldog objected to the bicycle riding of Montgomery Lightfoot, of Germantown, Pa., and attempted to pull him off his wheel by the leg. Not succeeding in this, he attempted to eat up the small wheel, and Montgomery took a tremendous header. Spectators drove off the dog, and the young man went home with a sprained wrist and an injured elbow.

A Cough, Cold or Sore Throat should not be neglected. Brown's Bronchial Troches are a simple remedy and give prompt relief. 25 cents a box.

The only surviving daughter of the late Noah Webster says she saw her father work twenty-one years on his dictionary, and that she never knew him to have any assistance whatever in preparing it for publication. After he had worked two years he destroyed all he had written and began the work over again.

The Hop Plaster will cure Bach Ache, and all other pains instantly. 25 cents only, at druggists.

In the Dear Old Days.

We differ in creed and politics, but we are a unit all the same on the desirableness of a fine head of hair. If you mourn the loss of this blessing and ornament, a bottle or two of Parker's Hair Balsam will make you look as you did in the dear old days. It is worth trying. It is the only standard 50c article for the hair.

What is a cold in the head? Medical authorities say it is due to atmospheric germs, uneven clothing of the body, rapid cooling when in a perspiration, etc. The important point is, that a cold in the head is a genuine rhinitis, an inflammation of the lining membrane of the nose, which, when unchecked, is certain to produce a catarrhal condition—for catarrh is essentially a "cold" which nature is no longer able to "resolve" or throw off. Ely's Cream Balm has proved its superiority, and sufferers from cold in the head should resort to it before that common ailment becomes seated and ends in obstinate catarrh.

A SAD CHAPTER.

Conductor Michael O'Rourke, of the Grand Rapids and Indiana Railroad, Likely to Die From His Injuries.

Mr. Michael O'Rourke, a freight conductor on the Grand Rapids road, had his left arm crushed between the elbow and the shoulder and was otherwise bruised while coupling cars at Decatur last night. He was working between his train to couple on a car load of stock, when another train drove the cars together and caught him with a vice-like grip between the deadwoods or "bumpers." His arm may have to be amputated at the shoulder and it is doubtful if he lives, so serious are his internal injuries accruing from his awful squeeze. He is only conscious at times, and is cared for at his home on Montgomery street. He is a cousin of Superintendent P. S. O'Rourke and a brother-in-law of County Commissioner Brannan. His wife and four little children are at the bedside of the sufferer.

Dr. W. H. Meyers is attending Mr. O'Rourke. He will not only save his life, but will attempt to save his arm. He put away portions of the lacerated muscles and unmoved the elbow joint altogether. He hopes to create a new union if no bad results set in. Mr. O'Rourke suffers from recurring chills.

Yesterday was a bad day for railroad men. THE SENTINEL noted the injury to E. N. Miller, a Grand Rapids brakeman, but besides two other casualties occurred. H. Enox, a laborer in the Pittsburg and Fort Wayne lumber yards, had his hands badly crushed by falling timber, and J. S. Todd, a brakeman on the Pittsburg and Fort Wayne road, was severely injured by falling backward from the top of a car while the train was in motion. He was brought to his home here.

HE WAS CROOKED.

Postal Messenger Elwood Nabbed for Stealing $40 from a Letter Addressed to H. G. Olds.

This morning Mr. H. G. Olds received from St. Bethlehem, Tenn., a registered letter. Postmaster Kaough delivered the pouch in person and saw its contents counted, noting a shortage of $40 in the amount due therein. He informed Mr. Olds that the missing money would be restored to him by F. N. Bassett, a postal inspector, who detented a train messenger named Elwood in the theft and recovered from him the $40 stolen from the letter in question. Elwood runs on the Grand Rapids road through Fort Wayne and coming from Cincinnati yesterday he twisted the greenbacks from the envelope. He is guilty of other thefts, but was nipped in this act by one of Uncle Sam's minions. Elwood is an old republican messenger and we do not anticipate that it will be necessary to file charges of offensive partisanship to accomplish his removal. The fellow is held at Grand Rapids and probably he will be disposed of there as he confesses and repents his rash acts.

A telegram from Grand Rapids to THE SENTINEL says: "A. H. Elwood, a mail agent on the Grand Rapids and Indiana road between here and Cincinnati was arrested this morning, charged with systematically robbing letters. Seventy-five marked bills were found in his possession. He confesses th everything. His home is at Silver Creek, Ind. He has a wife and three children, he was appointed four years, is fifty years old, a veteran soldier and in poor health. He said he was led to steal by financial straits."

The best physicians assure us that Dr. Bull's Cough Syrup is a reliable and never failing remedy.

Since the introduction of Salvation Oil the Society for the Prevention of Cruelty to Animals has nothing to do but to rub occasionally.
